She is a former operating budget analyst, a proud graduate of Managing Cash Flow and an Abundance Bound Course Facilitator.

Money Loves Attention

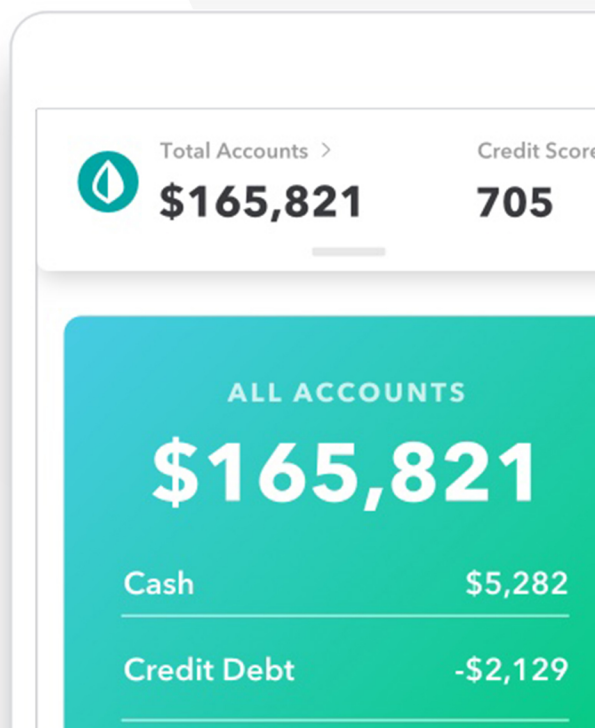

Are you someone committed to cultivating a consistent, thriving relationship with money? Then you have come to the right place. The Mint Money Magnet program provides step by step guidance using Mint budgeting software to help you effortlessly manage your finances in one place.

Where Awareness Goes, Energy Flows

What you track, grows. It's been proven.

Management thinker Peter Drucker is often quoted as saying that “you can't manage what you can't measure.” In other words, you can't know whether or not you are successful, unless success is defined and tracked.

That applies to your money as well.

What you track, you improve.

What we measure, we improve. The Mint Money Magnet program empowers you to use the software to track expenses, manage debt, monitor your investments and your growing wealth – all in one place.

Mint provides up to the minute, daily, weekly, monthly, quarterly, yearly reporting and tracking. Using unique categories chosen to reflect what's important to you, you'll always know exactly where you stand with your money.
